If she had a problem with the guy, she should have **phoned the police.**

There's one thing Mr. Spencer ignores, though. Israel would have a much freer hand if the "Palestinians" had a sovereign state of their own. If that were the case, the recent warfare that was started by the Palestinian occupiers of Gaza could have been answered with 100% all-out, firebombing-of-Dresden warfare until the "Palestinians" sued for peace. This wouldn't have to happen too many times before all the Palestinians would be dead. And as I've always said, "No Palestinians, no problem." [Remember: If you're not a Muslim, they hate YOU, too.]

America is Screwed

Don John, 6 Nov 2012

And this time, it deserves it. Four years ago, I **wrote** that we must "undermine, obstruct, and criticize these evil and Godless socialists, until their follies bring our countrymen to their senses." Well, our countrymen have fallen short. After four years of feckless, dictatorial rule by a classic malignant narcissist, it's clear that not nearly enough Americans have two brain cells to rub together. Unfortunately, those of us who still believe in freedom and human dignity will be dragged down with all the morons who have voted for Obama. When the Democrats' economic follies continue to bankrupt us all, and ObamaCare destroys American medicine, we'll at least be able to say "I told you so." But it will

be cold comfort.

The Republican Party still has firm control of the House of Representatives, and those of us who understand what liberty is must urge the GOP to continue obstructing, undermining, and criticizing Dear Leader Obama and all his henchmen as they continue to make America "progressively worse," to coin a pun. The Republican Party should be not just the party of No, but the party of Hell No. We should also keep hammering away at the president's role in the Benghazi massacre. But impeachment would be too messy. Since the country is already controlled by fascists, what would be the harm of a military coup?
