November 22, 2016 is the ninth annual celebration of V.I. Day. Sadly, Barack Obama abandoned the country that America liberated, and Iraq was overrun by the brutality of ISIS and the benighted, retrograde practices of Islam. During 2016, the Iraqis have won some important victories over ISIS. But that struggle is still in doubt. And the past five years of Islamist atrocities need not have happened. The willful surrender that enabled so many innocent people to be tortured and murdered will go down in history as **all Obama's fault**. Still, by the grace of God, in two months this treasonweasel will finally end his occupation of the White House!
