**Don John will be away on a voyage for a few days. But fortunately, between October 7 and 13 there are four very important anniversaries that give us a lot to contemplate and celebrate:**

**One of the most momentous battles in world history was fought on October 7, 1571.**

## **Remember Lepanto!**

*by Robert McMullen*

...Now, the Turks had raised a fleet of 181 ships, carrying some 30,000 soldiers, and Malta was the prize they sought. Their goal was to plunder and sweep all the ships of Christian Europe from the Mediterranean. Then, in control of the sea lanes and trade routes, with their naval and economic power supreme, all of Europe would be set to fall before them.

The Turkish fleet appeared off the coast of Malta, and laid siege to the island. All through the summer of 1565 the contest for Malta raged. In the end, the Knights of St. John (Knights of Malta) were victorious, and the Turks were forced to withdraw in defeat. It did not, however, end the threat from the Ottoman Turks.

In 1566, Pius V ascended to the Chair of St. Peter in Rome. Pius V was a Dominican Monk with a reputation for piety and austerity. A teacher of philosophy and theology for 16 years, unlike some previous Popes, he was a humble man who continued to lead the ascetic life of a simple monk even after becoming Pope.

Pius V was also very serious about defending Christendom against the Ottoman Turks. He knew they were not just going to go away and leave Europe in peace. Vienna and the eastern borders continued to be threatened by Moslem military power and incursions, and the Papal States themselves could soon be at risk. Cyprus came under attack again in 1570. Seeing the increasing danger to Christendom, Pius V called on "The Holy League," consisting of the Papal States, Spain, Genoa, Venice, and the Knights of Malta, to address the Moslem threat...

### **Lepanto, by G.K. Chesterton**

White founts falling in the courts of the sun,  
And the Soldan of Byzantium is smiling as they run;  
There is laughter like the fountains in that face of all men feared,  
It stirs the forest darkness, the darkness of his beard,  
It curls the blood-red crescent, the crescent of his lips,  
For the inmost sea of all the earth is shaken with his ships.  
They have dared the white republics up the capes of Italy,  
They have dashed the Adriatic round the Lion of the Sea,  
And the Pope has cast his arms abroad for agony and loss,  
And called the kings of Christendom for swords about the Cross...

## **The Battle of Tours-Poitiers, 732 A.D.**

Historians have assigned various October dates to the first crucial battle to halt the malign advance of Islam in western Europe. Some say it took place on the 10th; others say it was the 18th or 25th. But **Victor Davis Hanson** says it was October 11. That's good enough for me.
