---

November 22, 2017 is the tenth annual celebration of V.I. Day. Sadly, Barack Obama abandoned the country that America had liberated, and Iraq was overrun by the brutality of ISIS and the benighted, retrograde practices of Islamofascism. Then in 2017, the U.S. and its allies smashed the so-called Islamic State and took back most of the territory it had occupied. That struggle is not yet finished, though; a prolonged counterinsurgency operation will continue. And the past six years of Islamist atrocities need not have happened. The cowardly surrender that led to the torture and murder of thousands of innocent people will go down in history as **all Obama's fault**.
